

## Project Design Phase-I

### Problem Solution Fit

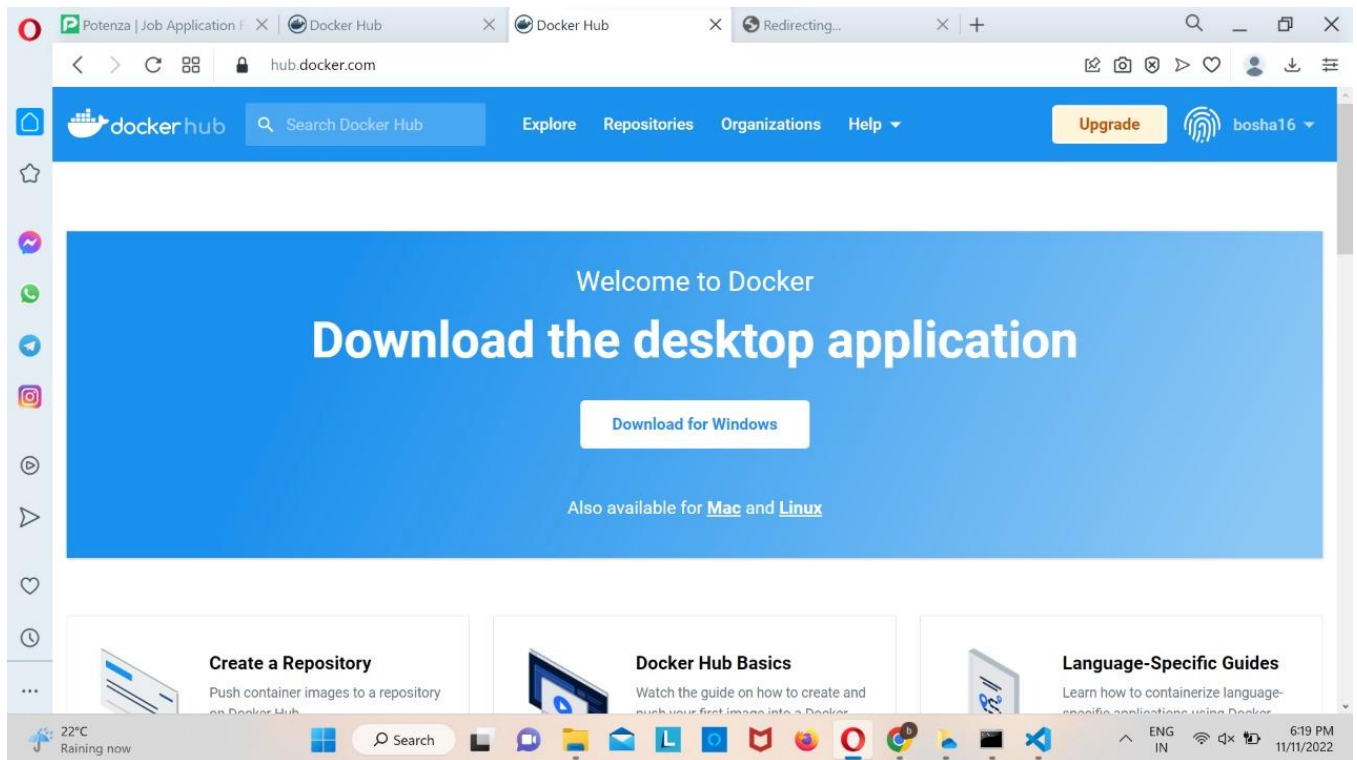

Date	08 November 2022
Team ID	PNT2022TMID29798
Project Name	Skill and Job Recommended
Maximum Marks	2 Marks

Step 1: Download docker from docker.com and install, it will be running the docker desktop installer.exe file

The screenshot shows a web browser window with the URL [docker.com/products/docker-desktop/](https://docker.com/products/docker-desktop/). The page features the Docker logo with '+WASM' and navigation links: Products, Developers, Pricing, Blog, About Us, and Partners. A search bar and 'Sign In' link are on the right, along with a 'Get Started' button. The main heading is 'Docker Desktop' with the subtext 'Install Docker Desktop – the fastest way to containerize applications.' Below this is a large blue button labeled 'Download Docker Desktop' with a Windows logo and the word 'Windows'. The browser's address bar shows a cookie consent notice from cookiepedia.co.uk. The Windows taskbar at the bottom displays the date and time as 5:59 PM on 11/11/2022, along with weather information (22°C, Raining now) and various application icons.

Step 2: Go to [hub.docker.com](https://hub.docker.com) register and create an account and login with the same

Step 3: Open Docker Desktop and start creating containers and images.

## Step 4: Docker Desktop is running
